

Software Developer

ALONSO HUAYTA

I am a passionate and dedicated software developer seeking a position with an organization where I can apply my experiences and my passion for software development. I love coding, and I appreciate communicating with my coworkers to find solutions, also elaborating a plan before approaching a project.

EXPERIENCE

Enrollment Resources, Full Stack Web Developer

I led API integration, React development, and database management, streamlining system functionality. My focus was on designing and developing modules that aligned with our business objectives, utilizing advanced front-end JavaScript/Typescript techniques for a seamless user experience in complex applications. I also oversaw the maintenance and optimization of SQL and MongoDB databases to support data-driven applications. Collaborating closely with cross-functional teams, I provided technical guidance and ensured successful project execution.

2021-2024

Contractor Work, FREELANCER

Working as a freelancer doing projects mostly on Web, static Web Sites, Web Apps, API rest. Working mostly with Python or Javascript and Wordpress(PHP). My recent projects were:

- Build an Api Rest using Node and Express for a Drugstore implementing all CRUD methods and small report system.
- Fixing Authentication methods using JWT Tokens.
- Making a small shift App with Gatsby and React.
- Redesign Dashboard for users and admins working with React and Redux.
- PHP Wordpress Sites With Html, Sass full responsive

2014-Today
